SUNNY SQUIBBLETS

The Woman's columns still seem to devote as much space on how to have white arms, as to the merits of political candidates.

And it takes far more space for the newspapers to tell the men what the ball teams did the day before, than to tell what the statesmen did to promote the advance of the country.

It costs high for house paint and labor, and it will cost the householders of Northeastern Vermont a lot more to let buildings deteriorate.

Many motorists feel that the fast trains should stop so they can cross the tracks without stalling their motors.

The labor troubles have not yet resulted in much bloodshed, but the inkshed has been enormous.
